

Job Description

Analytical Group Leader – Counterfeit and Contaminant Analysis

Triclinic Labs

Location: Lafayette, IN

Position: Full Time

About Triclinic Labs:

Our goal is to provide the most advanced laboratory and consulting services for solid-state chemical development and materials analysis. We provide contract development and analysis services for the pharmaceutical and specialty chemicals industries but have also analyzed and studied counterfeit items, minerals, semiconductors, and other unique substances. Over the last 15 + years we've helped the world's chemical development groups understand, discover, improve, and protect solid-state materials.

Job Description:

Triclinic Labs is seeking a scientist to:

- Carry out instrumental analyses on a variety of projects focused on unknown materials, contaminants, product failures, and counterfeit analyses. Reverse engineering is also a focus.
- Aid in maintenance and repair of analytical instruments. Schedule instrument vendor maintenance.
- Process analytical data for inclusion in reports.
- Write reports / Review direct reports' analyses.
- Mentor direct reports and supervise their work.
- Participate in instrument software validation as necessary.
- Be involved in multiple projects concurrently and exhibit flexibility to meet changing priorities.
- Provide high-quality work output and accurate record keeping
- Comply with all regulatory and laboratory requirements and policies.

Laboratory Instrument Experience (Required)

Infrared (IR) spectroscopy, Raman spectroscopy, Optical microscopy, Scanning Electron Microscopy, Particle Sizing, Contaminant and Foreign Material Identification

Job Qualifications:

- BS in chemistry or related field. MS, Ph.D. candidates given preferred consideration.
- The ability to self-motivate to a high level of productivity.
- Excellent verbal and written communication skills.
- The ability to organize and carry out a variety of tasks concurrently.
- The ability to deliver high quality laboratory work.
- Excellent interpersonal relationship skills.
- Commercial laboratory work experience is a plus.

Compensation and Application

We offer a variety of competitive compensation and benefit programs. In addition to an above market base salary, you will be eligible for our rewards and recognition programs, variable pay and incentive

opportunities, as well as benefits coverage beginning on your first day of employment. You will be eligible for paid company holidays, flexible work options, and paid vacation. We are also committed to supporting your professional development through career ladders, training programs, tuition assistance, and professional association events.

If you meet the requirements of this opportunity, we encourage you to explore how you can make a difference at Triclinic Labs by applying now at:
